

# International Activities in 2009

**SJAC promotes international activities with the goals of promoting international business cooperation in the aerospace market, acquiring overseas information through participation in overseas conferences and in the International Aerospace Exhibition.**

The main activities in 2009 were as follows.

## 1. International Business Promotion

a. During the 2009 International Paris Air Show - Le Bourget, SJAC organized several international receptions. (June)

- AIA–SJAC Joint Reception

Held in Paris, this annual joint reception drew an attendance of more than 200 executives from leading U.S. and Japanese aerospace companies. Both Chairmen of AIA and SJAC co-hosted the reception along with guests from both governments.

- ASD–SJAC Joint Reception

The joint reception was held with both executives from EU and Japanese aerospace industries and governments at GIFAS Chalet. Attendees were able to network and build close relationships.

b. During the 2009 Paris International Air Show, SJAC and its members attended the following conferences. (June)

- Japan–U.K. aerospace exchange meeting co-sponsored by UKTI and SBAC

- Japan–Canada network meeting co-organized by Industry Canada and AIAC

## 2. Acquisition of Overseas Information

a. METI International Aircraft Symposium (February)

The Ministry of Economy, Trade and Industry (METI) organized international aircraft symposiums in Czech and Poland, supported by SJAC and other organizations. Government officials, representatives of organizations, and local companies, presented their industry policies as well as the capabilities of the companies.

Meeting with Czech Government

b. ICCAIA (International Coordinating Council of Aerospace Industries Associations) (June)

SJAC attended its annual meeting in London along with the other members: i.e., AIA (U.S.), ASD (EU), AIAC (Canada) and AIAB (Brazil).

The following major issues were discussed:

- FAA Reauthorization law

- Aircraft emission reductions

c. ASD (AeroSpace and Defence Industries Association of Europe) Annual Convention (October)

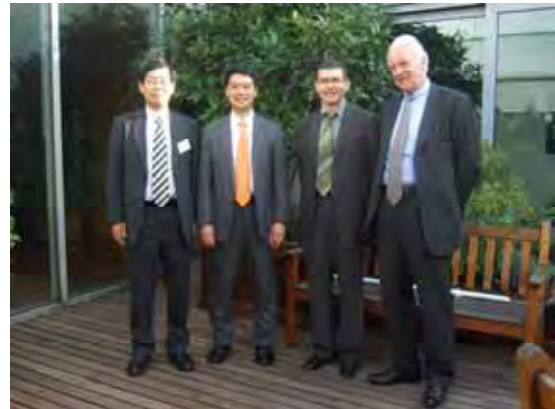

The ASD organized the annual conference in Helsinki, France. With attendees from all over Europe, SJAC attended this conference as a foreign industrial association's representative and was able to exchange views with European Aerospace industries.

d. AIA (U.S.) International Council Annual Conference (October)

AIA organized the annual International Council Annual Conference in Washington DC, and SJAC had a presentation about Japanese Aerospace Industry. The key issues covered were international security and export control.

### 3. International Cooperation for SST Program

At the 2005 International Paris Air Show (Salon International de l'Aéronautique et de l'Espace, Paris-Le Bourget), GIFAS and SJAC signed the Supersonic Technologies Cooperation Agreement. Under this framework, both countries' aerospace industries and research institutes conduct cooperative research programs. At the end of the agreement, both GIFAS and SJAC found it beneficial to continue the program and decided to extend it an additional three years, ending in 2011. The fourth workshop meeting was held in Paris, France, and the status of research programs were reported mutually in such fields as airplane configurations, advanced composite manufacturing and materials, high-temperature composite material, jet noise reduction and acoustic propagation. (October)

The fourth workshop in Paris

### 4. Participation and Exhibition in the Overseas Air Shows

JA2012 Office of SJAC participated in international air shows and exhibitions for promotion activities of Japan Aerospace 2012.

- a. International Paris Air Show 2009 (June)
- b. Taiwan Aerospace & Defense Technology Exhibition 2009 (TADTE 2009) (August)
- c. The International Aviation and Space salon MAKS (MAKS2009) (August)
- d. Asian Aerospace International Expo and Congress 2009 (Asian Aerospace 2009) (September)
- e. Seoul International Aerospace & Defense Exhibition 2009 (Seoul Airshow 2009) (October)
- f. Aerospace & Defense Meetings TORINO (October)
- g. China International Industry Fair 2009 (November)
- h. Singapore Airshow 2010 (February)
